COMPANY OVERVIEW

Fox Sensing Technologies (FST) is an advanced engineering consulting and technology development company focused on sensing systems, signal processing, artificial intelligence, sensor fusion, RF technologies, and modeling & simulation.

CORE CAPABILITIES

- Engineering Consulting
- Technical Advisory Services
- Advanced Sensing & RF Systems
- Signal Processing, Algorithms & Analytics
- Artificial Intelligence & Machine Learning
- Modeling, Simulation, & Digital Engineering
- Fuzzy Systems & Decision Support
- Advanced Distributed Sensing & Sensor Fusion
- Software Defined & Reprogrammable Systems

PAST PERFORMANCE & RELEVANT EXPERIENCE

Aerospace & Defense Systems, Technical Assessments & Studies, AI & Analytics, Engineering Leadership.

DIFFERENTIATORS

✓ Founder-led Execution
✓ PhD-level Expertise
✓ Aerospace & Defense Experience
✓ Active Secret Clearance

COMPLIANCE & CYBERSECURITY

✓ CMMC Level 1 Implemented
✓ MFA
✓ Secure Cloud Infrastructure
✓ Endpoint Protection

KEY PERSONNEL

Dr. John R. Fox, PhD
Founder & CEO
PhD Aerospace Engineering
MS Software Engineering

NAICS

541330, 541690, 541511, 541512, 541715

Small Business • CMMC Level 1 Implemented • Active Secret Clearance (Key Personnel) • DoD Ready

FOX SENSING TECHNOLOGIES LLC
Advanced Sensing • Distributed Intelligence

MISSION

To help organizations develop better sensing and information-processing systems by providing specialized expertise, regorous analysis, and practical technology development support.
